

General Information

Description

- ◆ This colorless liquid has a sweet, ether-like odor.
- ◆ It has low volatility and high boiling point.
- ◆ It is completely water soluble and used to produce diethylene glycol butyl acetate.

Applications

- ◆ Paint, Printing ink, Detergent, Coupling agent, Brake fluid, etc.

Physical Properties¹

Test Item	Test Method	Specification
Purity, wt% max.	G.C.	99.0
Specific Gravity (20/20°C)	ASTM D-891	0.955 – 0.959
Water, wt% max.	ASTM E-203	0.1
Acidity (as acetic acid), wt% max.	ASTM D-1613	0.005
IBP, °C min.	ASTM D-1078	227
DP, °C max.	ASTM D-1078	235
Color, APHA max.	ASTM D-1209	10

Notes

¹ Physical Properties : these are not to be construed as specifications.
